SUMMARY

Full Stack Developer with experience building scalable MERN applications and customizing ERPNext systems. Skilled in REST API design, JWT/RBAC security, and MongoDB/MySQL optimization. Delivered production systems serving 300+ users. Trained at Sheryians Coding School.

EXPERIENCE

Extension Technologies

Dec 2025 – Present

Software Developer Intern

Faridabad

- Engineered custom ERPNext modules using Python/Frappe, streamlining 5+ business workflows and reducing manual processing time by 25%.
- Built automated validation pipelines enforcing data integrity across modules, cutting human errors by 30%.
- Resolved MySQL query bottlenecks with composite indexing, decreasing average API response time by 35%.
- Enforced RBAC across user tiers and resolved critical production bugs, sustaining 99% system uptime.

Shadowfox

Sep 2025 – Nov 2025

Software Developer Intern

Remote

- Built MERN-based internal tools replacing manual workflows and improving team efficiency by 20%.
- Designed RESTful APIs using Node.js/Express with MVC architecture, improving maintainability and scalability.
- Secured routes with JWT-based authentication including token expiry and refresh logic.
- Boosted frontend performance by 40% via React lazy loading and reduced MongoDB query latency by 30% through indexing.

PROJECTS

Wedding Bureau Management System (Client Project)

MERN | JWT | RBAC

- Delivered a matchmaking platform for a paying client serving 300+ users across admin, member, and staff roles.
- Optimized MongoDB schema with compound indexes, cutting API response time by 30% and page load time by 25%.
- Secured 10+ routes with granular RBAC middleware, preventing unauthorized data access.

Smart Restaurant Management System | Live Link

MERN | QR Integration

- Built a QR-based ordering system automating the customer-to-kitchen pipeline and reducing order entry errors.
- Developed real-time dashboards for admin and customers; refactored APIs reducing backend overhead by 20%.

Taja Thela Marketplace | Live Link

MERN | Geolocation APIs

- Architected a three-sided marketplace for vendors, customers, and delivery partners with role-specific dashboards.
- Integrated Geolocation API with distance-based filtering within 5–10 km; reduced data retrieval time by 22%.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Core Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, ERPNext, Frappe

Databases: MongoDB, MySQL

Security & Concepts: JWT, RBAC, REST API Design, MVC Architecture, Database Indexing, System Design

Tools: Git, GitHub, Postman, Docker, AWS

CERTIFICATIONS & COURSES

Full Stack Web Development — Sheryians Coding School

2025

MERN stack, REST API design, JWT authentication, and deployment

EDUCATION

B.Tech in Computer Science

2022 – 2026

KCC Institute of Technology and Management, Greater Noida

CGPA: 7.8 / 10
